

**TraxSolutions™ Making a Difference
Boys & Girls Clubs**

“Now that we use KidTrax I no longer have to worry about backing up our data or when to find the time to install updates. I really appreciate the fact that KidTrax is web-based; it saves us time and money.”

John Kungl
IT Director
Boys& Girls Club of Clifton, NJ

“Our organization is very pleased with the solutions and services provided by nFocus Software. Kidtrax and MoneyTrax have helped us with our daily management of membership, data collection, money management, and reports, as well as our 21st Century Community Learning Center grant report. All four of our sites use the software and we feel it is easy to understand and operate. If we need help getting information, the technical support that we receive is exceptional and handled in a timely manner.”

Tim Rogers
Director at CMS
Boys & Girls Clubs of Dundee Township, IL

“KidTrax has enabled our staff to better quantify how many kids we serve and how many hours we serve them. This has helped us provide funders with the impact statistics they want, as well as allowing us to better evaluate our performance.”

Stan Lewandowski
Boys & Girls Clubs of Toledo, OH

“I have been working with nFocus Software for a little over 10 years. Through the years I have seen KidTrax grow into an amazing system to help us track our member data. This solution has enabled us to use the facts for grants and for helping our board members see the impact we have on the community. The technical staff is amazing. Their prompt and courteous services are one in a million. The staff at nFocus is wonderful and I look forward to working with them for many more years.”

Teresa Watson
Grant Manager
Boys & Girls Clubs of Greater Goshen, IN
