

### Education

"KidTrax is a comprehensive, user-friendly tool for tracking attendance for our school district's federally and state funded after school programs. With thirteen school sites to keep attendance numbers for, I was sinking under lots of paper attendance sheets which had to be hand entered into spreadsheets. Now I can access my attendance numbers in a matter of seconds. The technical support that nFocus provides is exemplary. Their response time is very fast, they are always helpful, and can find a solution to any problem I might have. I could not provide the level of support to our programs without this amazing tool!"

**Barbara Akimoto**  
Chico Unified School District, CA

### Parks & Recreation

"When we write grants and reports we often times comment that we use the KidTrax software to show we are technologically advanced, dedicated, and accountable."

**Jason Davie**  
City of Santa Maria Parks & Rec Dept/PAL, CA

### Community Centers

"KidTrax gives us the ability to answer any question in seconds, for internal use or grant applications. We provide complete documentation on everything from attendance to demographics!"

**Anita Diaz**  
Westpark Community Center/PAL, CA

"The web version is so much faster and easier to use. Having the knowledge base online is like having immediate technical support. Having nFocus Software take my suggestions for a feature that is not in the application and then having it added in a short amount of time is an incredible service that no other vendor has ever provided."

**Tammy Riotto**  
Youth for Change, CA

### Police Athletic Leagues

"What makes nFocus Software different from other software options available to us is the strong support and partnership of nFocus. We feel their commitment to the betterment of the entire California PAL and all of our local chapter PAL programs. That "personal" touch does make a difference."

**Bryan Ferriera**  
California PAL, CA
