

High-Level Executive Data

Executive Overview

Executives can easily see a high-level overview of the operations data they need for smarter-decision making on a single, easy to use dashboard.

Instant Data

Instant data gives executives a quick overview of overall service hours and average daily attendance metrics by site or by organization, including YOY enrollment comparison.

Performance Management

Real-time at-a-glance visibility into clear and concise business performance data is readily available across all sites.
