### Proven Experience

TraxSolutions has been a market leader in participant management solutions for over 25 years. With over 10M participants tracked, 500k programs and activities managed, and 250M attendance records logged, organizations trust TraxSolutions to streamline operations and track outcomes.

### Optimized for Nonprofits

The TraxSolutions software suite is designed to meet the unique needs of organizations just like yours. Effectively collect and analyze data, manage programs and participants, process payments online and measure outcomes to better understand your impact.

### Implementation-ready

With TraxSolutions, you get enterprise-grade software that will feel customized without complicated integration. Most implementations take a couple weeks, not months.

### Modular Design to Scale

Add-on modules extend core functionality to tailor a solution to your unique mission. As your organization's needs expand, additional capabilities can be added when ready.

# TraxSolutions Software Suite

## Core Features

From attendance tracking and program management to reports, dashboards and mobile apps, TraxSolutions includes everything you need to automate participant management right out-of-the-box. The base platform delivers robust, configurable features built for the most demanding requirements. As your needs expand, add-on modules integrate seamlessly with the core database engine.

## Coordinate Modules

**TraxAdmin** lets multi-site providers consolidate information across all locations in a single database.

**VolunteerTrax** efficiently stores, manages, and generates reports on volunteer time.

**StaffTrax** manages data on workers, training, time, attendance and more.

## Connect Modules

**Online Registration** lets participants enroll, renew, or update their profiles online and make payments.

**MoneyTrax** allows you to process membership enrollment and program fees.

**TraxTalk** automatically messages parents/guardians when their child checks in or out with important alert capabilities.

**TraxFacts** delivers direct insight into organizational performance with concise metrics and yearly trend analysis.

## Impact Modules

**SurveyTrax** enables you to gauge participant attitudes, assess, score, and track responses over time with pre- and post-program analysis.

**Case Management** tracks milestones, goals/actions, theory of change, and interactions with program participants.

**Outcome Measurement Toolkit** helps you quantify program effectiveness to demonstrate your program's impact with automated logic models and charts.

## MORE THAN SOFTWARE

Connecting the Mission You Value...  
With the People You Serve
